THE COMPOUND BALSAM OF HOARHOUND is a tonic remedy, possessing anodyne properties without astringency. It produces a free and easy expectoration, etc. It has received the commendation of the medical faculty of Mobile, and several physicians of New Orleans, who prescribe it in their practice—which is evidence enough of its value, without affixing letters of the commendation. It will be found safe in its operation, pleasant and agreeable in taste.

We have removed from ourselves all liability of empiricism, by submitting the mode of manufacturing this preparation to the confidential examination of the following physicians of Mobile, who have certified to its being a safe, pleasant, and efficacious remedy for domestic use, being innocent in its effects on the system of the most delicate infant, or aged invalid:

Teachers of penmanship always direct the pupil to hold the pen so that the top will point over the right shoulder, for by so doing the split and shades are brought more in a line; but still, "when held well," there is from 15 to 35 degrees difference between the split of the pen and the downward marks. W. Fife's Oblique Pen obviates this difficulty. It curves or deflects from 15 to 35 degrees to the right at the point where it comes in contact with the paper, and it is as perfect an instrument for sloped writing as the straight pen is for backhand. AN APPEAL TO THE INTELLECT. It is one of the features of Pulmonary Disease that it nerally leaves the brain undisturbed. We therefore appeal to the intellects of all who are predisposed to consumption, warning them solemuly, that in neglecting what they call slight Colds, they may be signing their own death warrants. There is no excuse for such negect. In DR. ROGERS' SIRUP OF LIVERWORT. TAR and CANCHALAGUA, they have within reach, at all times, a positive specific. We make no reservation or qualification of the phrase, and we are backed by nen of the highest scientific attainments, whose approval of it. if worthless, no wealth could purchase, in say. ing that it is as nearly infallible as anything in this falli le world can be. In the winter of 1850, I was attacked with a severe pain, which was gradually extending through the whole right side and leg; at the same time, a total prostration of my physical system; also, my leg had shrunk to about two-thirds of its common size. I procured the attend ance of a skilful practitioner, who pronounced my disease one of the worst forms of liver complaint. He said my case was one not easily handled, but prescribed for me. I remailed under his treatment until I was satisfied he could not help me. I then procured of your agent at this place, W. A. Beers, two bottles of Guysott's Yellow Dock and Sarsaparilla, from which I received a vast amount of benefit. After having taken four bottles more I was able to pursue my business without any inconvenience, and have been since that time a well man, while but a short time since I was confined to my bed three fourths of the time; and I cannot ascribe the retu nof my health to any other cause than by the agency of that my health to any other cause than by the agency ruiy valuable medicine, Gnysott's Yellow Dock and Arsaparilla. NAVARRE, Stark CO., O., Nov. 1, 1851.

DR. JOHN D. PARK — Dear Sir: "Dr. Guysott's Exract of Sarsaparilla." This medicine has been prescribed by me for the last three years, with good effect, in general debility, Liver Complaint, Jaundice, Dyspepsia, Chronic and Nervous Diseases. In all Female Complaints it certainly is unequaled.

In the use of this medicine the patient constantly gains strength and vigor, a fact worthy of great consideration. It is pleasant to the taste and smell, and can be used by persons with the most delicate stomachs, with safety under any circumstances. I am speaking from experience, and to the afflicted I advise its use

THE OLD MAN'S PRAYER FOR LIFE.

THE bustle and excitement of the day was over—
men of business were hurrying home to meet those
who looked with deepest anxiety for their return—the
dim lights of the street lamps were flickering as the
cold winds went howling by, warning all that dread
winter was at our door with his cold and icy hand—
when a plercing cry of distress was borne to our ears on
the passing wind, and seemed to come from one whose
head was white with the frosts of many winters. We
hurried to the spot, which was but a few steps from our
door, and there saw, seated upon the door-step, a man
whose silvery head told well of the marks old Time had
made. We looked upon what seemed to be the wreck
of life gasping for brea h. His voice was choked and
barely uttered "save my life!" A dry and hacking
cough seemed Consuming his very vitals, while the
crowd looked on in pity for the old man. But soon a
hurrying step was heard. We turned and saw a mes
senger of life coming swiftly towards us, bearing in his
right hand that which has saved the lives o, many. He
had, upon hearing of the great distress under wnich the
old man was laboring, hurried to the store of North's Compound Balaam of Hoarhound and Naphra, which he gave
to the sufferer, who, upon taking it, was soon restored
to good health and to his anxious family, who will ever
be thankful for this timely remedy.

All those afflicted with coughs, colds, &c., will do
well to try this valuable medicine, which is the best pre

The simple proposition resolves itself in this-will the voters of Henry county take, or authorise the taking of the stock aforesaid, for the object or purpose aforesaid, with all the onditions thereof? One of the conditions, in effect, forcing upon a minority two things-to take the stock, and become subject in their property to a tax against their consent, and to which they are bitterly opposed-thus forcing us into such measures.

Having plainly stated the proposition, permit Having plainly stated the proposition, permit us to notice a couple of gentlemen who have, and are acting a very conspicuous part in the drama. In the Louisville Weekly Courier of drama. In the Louisville Weekly Courier of Jan. 17th, there is an effusion of Mr. Geo. D Dicken, appealing as he says, to the voters of Henry county. We refer the interested reader to it—hear him. He modestly says, "this scheme is his-my scheme-how I met the people at a certain place; (no doubt they came to ether at his instance,) they passed resolutions &c., carrying forward this grand scheme." And too, he "had seen many of the most intelligent and influential citizens-they approved my scheme." Claiming the parentage of this grand scheme; and a great affair it is. It comes of a great man. I will go to every section of the county, and speak in behalf of it. Big I. too, friends--little thanks and poor pay, and entitled to less for the nursing. Gove it over, it will die, if not sooner; the third Monday in March, it will be killed outright-pity it had not, in embryo. It is but a poor ill begotten, illegitimate, hideous monster, with no constitu tion, as you will presently see—it is consump tive, has a nauseating breath, smells so of taxes; and will cry incessantly, dolefully, give! give! It commenced the cry at its birth—its native place, Frankfort; will be the same cry on election day. If we dig not its grave, and attend not its funeral on that occasion, we are out .--

Who will or can tell how long and loud it will This Mr. N., in his great care in drawing up this bill, was very careful not to say anything that sounded like taxes. It had to come once, but it was reserved as the finishing stroke—the fag end, section 13. Scrutinize it, voters, that if it turn out so and so, then it shall be the duty of the Henry county court to levy a tax upon the property of the citizens of the county sufficient, &c. A pink or rose, by another name, would smell quite as sweet. Where are all the appendages to come from? They will fall upon our pates, doubtless. A poll tax, like the hotseour pates, doubtless. of These facts are established by the experimental engine leech of the bible, the blood-sucker, will never be satisfied. Expenses of the election, the one be satiated. Expenses of the election, the one per cent. to treasurer, three commissioners to be well compensated-this board of internal for this great commonwealth; improvement judge, clerk, sheriff, attorney, &c., all entitled to pay, and rightly, so reasonably; but doubly

because it will come from the public crib. More legislation will be found necessary. This self-constituted representative, who attended to getting the passage of his bill in the bsence of our proper representative, who was called homesto a sick family, and necessarily absent, will, if the scheme succeed, find de clearly apparent already, in advance. He will attend to all such matters, to-be sure. Then, in his great care, he ought to have been careful that his bill was constitutional—a very material point in the case. Great blunder that, in a constitution maker. We have now come to that point. We said the creature had no constitution; now see and judge and decide. Take from the book, the constitution; refer to the

bill of rights: "SEC. 2. That absolute arbitrary power over the lives, liberty, and property of freemen exists nowhere in a republic, not even in the

largest majority." "SEC. 3. The right of property is before and higher than any constitutional sanction; and the right of the owner of a slave to such slave, and its increase, is the same, and as inviolable as

ever. Read also the fourtn section. If those provisions, so full and clear, and language so plain, are not in point certain, and vitiate the whole thing, and foreclose those now for our government to ascertain by what right the British government is mixing in the local contentions of any of our American re-language mean? what is intended?" If they publics! If that formidable nation has any mean what they say, and say what they mean, an American republic, and interfere in the political contentions and domestic policy of its people, than our American government would have to sail one of its shins of the line into the posed, and as feeble as the effort may be, firmly resist, and will to the last. Liberty and prop able, over which absolute arbitrary power exist nowhere in a republic, not even in the larges majority—the very thing sought in the proposi tion over our liberty, thus to force us, agains our consent, into a transaction which we are utterly averse to-the taking the stock-and for were the initials H. E., of the voters of the county, so far from the right of the exercise of this power over either, in any mode or form whatever, no way-not even in the largest majority. Now, is it no unconstitutional, unreasonable, and unjust-absolute, arbitrary, and despotic in the extreme? Such imperial powers are not to be found nor to be exercised in a republic.

The right of those freemen, in their liberty, is not the only thing secured-life first, and their property the third thing. The right of property is before and higher than any constitutional sanction-inviolable, before and higher. Constitutional sanction no written law of itself gives; they rather are designed to protect, defend, and secure those inherent rights of men. They exist in nature, in the law of nature, reason, right, and justice. WISTAR'S BALSAM OF WILD CHERRY

The best Remedy ever known to Man for Coughs, Asthma, Colds, Croup, Bronchits, Influenza, Bieeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, first stages of Consump-

tion, &c., &c.

Wild Cherry has long been known to possess important medicinal properties. This fact is far litar to every matron in our land, and physicians often prescribe it in different forms for a variety of compains. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that aione. In other hands, again, it was nearly valueless, owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or u-cless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and ilver diseases ever known to man. To convence all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

tribute to Dr. Wistar's Balsam of Will Cherry;
Rushuylle, Fairfield county, O., April 6, 1851.

Mr. J. D. Park — Dear Sir: I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of Consequence.

She appeared to be sinking into a decline, with every symptom of Consumption.

I then tried Dr. Rogers' Liverwort and Tar; but this aggravated her Gough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembing fear that I from day to day saw the progress of that insatiable disease, Consumption. Ireally despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, Sarah Jane, was cured of Consumption by Wistar's Balsam of Wild Cherry. This created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instant ly gave relief; her health was improved from the first bottle, and by the use of two bottles of Wistar's Balsam of Wild Cherry she was restored to perfect health, and she is not now at all predisposed to a cough.

I will say to all that are afficted with any disease tending to Consumption, do not despair; for Dr. Wistar's Balsature, against any increase of the Tariff duties. ng to Consumption, do not despair; for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try

MR. KLDSR-Sir: I cheerfully avail myself of this of portunity to give you a few brief st dements in reference to Professor Salomon's New Mechanical Motor, as it

portunity to give you a few brief st tiements in reference to Professor Salomon's New Mechanical Motor, as it is your request, as well as a duty I owe my country. The facts are the following, as near as I now recollect:

I arrived at Cincinnati on the 8th of October, 1851, and on the following day I called to see Professor Salomon's New Mechanical Motor, of which I had read accounts in the public papers. I was desirous to see the engine, from the fact that I had for some time previous been studying to make some principle applicable as a motive power to machinery. I was asto-tshed and defigited in witnessing the construction and operation of the engine. I saw my embodied idea before me more perfect than I had conceived.

I witnessed the operation for near an hour. It was uniform and perfect, and of sufficient power to lift a weight of 12,000 pounds 25 times in a minute. This power was applied to turn the machinery of the shop, and appeared to be equal to steam engines commonly used in machine-hops. The whole length of this engine is about 12 or 15 feet, and I suppose its weight might be about five or six tons. The turnace is a small sheet from pan, the size of my hat, and held about a double handual of charcoal. The machinery is not more complicated than that of the steam engines of contract.

of charcoal. The machinery is not more complicated than that of the steam engine, the principle of construction and operation being the same. This was estimated to be a 25 horse power engine, of which I have given you a brief description.

I am not pecuaiarly interested in the success of the invention. I never expected to be called upon to make any statements in reference to it. I have had no previous acquaintance with Professor Salomon, and never saw him, to my knowledge, until I met him in this city on yesterday. Yours, respectfully, P.E. ROYSE.

Mr. Orr introduced a bill to facilitate counsel living at a distance from Washington, by classifying the docket of the Supreme Court. The motion to refer to committee of the

whole, the bill granting the way and a portion construction of certain railroads, was resumed. Mr. Miller insisted upon the justice of the grant. One of these roads commenced at Hannibal on the Mississippi river, one hundred and thirty miles above St. Louis, near Quincy, Ill. From this point the road has been surveyed to St. Joseph's, five hundred and fifty miles above St. Louis, making a distance of near two hundred miles which would form a connecting link with the road to New York. The other road commences at St. Louis, and continues to a point one hundred and thirty miles Sonth of the beginning of the Hannibal road. The other

roads are already completed or in progress, which will connect with it and Cincinnati. A company for the construction of this road has already been incorporated, and can be finished in five years. It will terminate at the

Western boundary of Missouri. There is now an available capital of \$4 000,-000, or two thirds of the necessary amount for the construction of these roads.

Although historians and poets have from all times depicted in glowing colors the horrors of war, yet few persons have any adequate conception of the social and domestic misery it produces, particu-"Memoirs of the Duchess D'Abrantas"and presents a view of the dreadful pasmen, and the ruthless acts perpetrated by a marauding soldiery. The account is given in the words of the authoress:

A regiment was sent from Burgos against a guerrilla party, under the Maronly by narrow footpaths, were the resort of banditti and guerillas. A principal celerity with which all our movements the difficulty we experienced in procuring a spy or guide, while these, when found, proved almost uniformly treacherous. The battalion had to march through a frightful country, over rugged rocks, and crossing frozen torrents, always in dread of by a miracle. unforeseen and sudden dangers. They reached the village, but perceived no movement, heard no noise. Some soldiers advanced, but saw nothing-absolute solitude reigned. The officer in command, suspecting an ambush, ordered the utmost circumspection. They entered a street and arrived at an opening where some bundles of wheat and indian corn and a quantity of loaves, were still smoking on the ground, but consumed to a cinder, and swimming floods of wine, that had streamed from leathern skins which had evidently been purposely broached, as the provisions had been which burned, to prevent their falling into the hands of the French.

No sooner had the soldiers satisfied themselves that after all their toils and dangers no refreshment was to be obtained, than they roared with rage—but no vengeance was within reach. All the inhabitants had fled into the forest.

Suddenly cries were heard issuing from one of the deserted cottages, amongst which the soldiers had dispersed themselves in the hope of discovering some food or booty. They proceeded from a young woman holding a child in her arms No sooner had the soldiers satisfied

At this moment shouts of joy arose, and the soldiers appeared carrying a number of hams, some loaves, and, more welcome than all, several skins of wine-all discovered in a vault, the entrance to which was concealed by the straw the woman was lying on. The young peasant darted on them a look of infernal vengeance, while the lieutenant, who had pondered with anxiety on the destitute and sinking condition of his troops, rejoiced for a mo-

CERTIFICATES OF CURES PERFORMED BY

DR. A. J. VANDERSLICE.

PHILADELPHIA, May 17, 1849.

THIS is to certify that I have long been afflicted with the Dropsy, from which I have suffered much bodily as well as mental pain. I have tried many remedies with scarce any benefit, and applied to several eminent physicians, who promised a speedy cure; but, unfortunately, their promises were never realized. I was induced to try Dr. A. J. VANDERSLICE, who soon, by his course of treatment, restored me to health. I am induced to maket as public, in hopes that others unfor tunate may consult him with like success.

BRIALIANT Teeth and Sweet Breath.—
There can be not the slightest doubt but that many diseases arise from neglect of the teeth. Pure air is as necessary to health as food is to life, but those having dirty teeth and spongy gums are constantly inhaing an impure atmosphere, and hence many diseases arise which perhaps are never attributed to the right cause. Corner First and Main streets.

URES in this city, together with certificates of first families, standing and fortune in Kentucky, of cures in their families, warrant the assertion, where light and vision remains, the eye not having been operated on, that with the use of my invention of medicines, sight agains restored, perfect to age in all the different afflictions of the eye, ever before pronounced hopeless and beyond the power of medicine or skill. Hence we aver, we have no equal in medicines, for the fact that no record of instory or medical writing can dare pretend equality incures.

We invite a vestigation—come witness for your selven seeing is believing. No humbug in seems. The knile, vitriol, or caustic were never intended for the eye, nor can it ever remove disease therefrom. Let disease strike the system where it may, it immediately locates in the stomach, and is nourished and grows there, and if ever removed, is done by operating with a proper medicine, and through the stomach, and through that alone. I learn by the immediate, healthy and pleasant operation of my medicine on the stomach, and through their proper channel find their way to every near through their proper channel find their way to every near through their proper channel find their way to every near through the stomach, and as life again returns to the nerve of the eye, alland every disease, called or known by what name you please, leaves as snow before the sun, till the sight becomes as perfect as age permits. So old sores, as all chronic diseases, pains or aches are healed alone through the stomach. A mong the numerous afficting cases which I now have undersuccessful treatment, several can be witcessed which have baffled the skill of the mineral practice, although administered by the most popular, successful and extensive practitioners.

MARSH'S LATE IMPROVED SELF ADJUSTING TRUSS—the embodiment of ingenaity. Skill and science are beautifully blended in this useful instrument, admirably adapting itself to the different movements and positions of the body. Its perfect action and certain pressure at all times and under all circunstances, gives to the wearer that confidence in his safety so nacessary to his happiness. The instrument is neat and compact, dispensing wholly with straps and buckles, leaving the wearer a free use of his limbs, he becomes unconscious of its presence, and pleased with its relief, continues to wear it a few months, when a cure is permanently effected.

Also, MARSH & CO.'S ABDOMINAL SUPPORTERS, of various patterns; one of which claims especial attention, as it is worn with much comparative comfort to that of others, being so constructed as to give a uniform support to the Back and Abdomen, doing away with the steel spring, so annoying to the wearer. The above article will be found of great benefit to persons afflicted with pain in the back and sides, inability to be upon their feet for any length of time, which arises from a displacement of parts that are readily restored by timely application of a properly constructed instrument. will still pay a liberal price for young Negroes

HAUEL'S PURIFIED CHARCOAL TOOTH-PASTE is decidedly the best remedy yet discovered for diseased teeth and gums, as it neutralizes the disagreeable odor arising from cerious teeth, and renders the gums firm and healthy. All dentists agree that Charcoal is an excellent dentrifice; but many persons have been fearful of using it on account of the hard and gritty substances which are generally mixed with it, and which are calculated to injure the enamel of the teeth.

Jules Hauel's Purified Charcoal Tooth-Paste is entirely free from this objection, as the coal from which it is prepared is formed from poplar wood burnt expressly for the purpose in an iron cylinder. The other ingredients are only such as are necessary to prepare the charcoal in this form, and in themselves are entirely innocuous. The Purified Charcoal Tooth-Paste will impart the most beautiful and brilliant whiteness to the teeth, keep the gums healthy, and make the breath pure and sweet. For sale wholesale and retail by

We answer, this Tincture is composed entirely of vegetables from nature's garden, which give strength and tone to the stomach—creating a healthy appetite, which the patient is at liberty to indulge, then it is life finds its way to every member throughout the entire system. The liver then, whose functions are vital and of every importance to the system, commences its healthy operations, which are: first, to clean itself; next, it opens the pores, throws off all impurity of blood and food, clears off that gloom and wretched feeling which ever attends a morbid liver. The bowels now become regulated, and healthy action takes place—every nerve receiving its wonted life; the whole system is invigorated, rendering life truly desirable and comfortable.
